PRELIMINARY AMENDMENT IN CONTINUED PROSECUTION APPLICATION

Assistant Commissioner for Patents  
Washington, D.C. 20231

Sir:

This Amendment is filed in response to the Final Action mailed on January 3, 2003 in the subject application.

Claims 1-32 are pending in the application. Claims 1-17 and 22-25 have been allowed. Claims 21 and 32 have been objected to and indicated to be allowable if combined with respective base and intermediate claims. Claims 18-20 and 26-31 have been rejected.

By the present Amendment, new Claims 33-39 have been added.

Applicant's Claimed Improvements

The rejected claims are directed, among other features, to two particular improvements:

- (a) The tamper deterrent means recited in independent Claims 18 and 26; and
- (b) The "directional indicators" on the range setting wheels of the hinge in the embodiment of Figures 6-9 and recited in Claims 27, 29, 38, 39.
